Target version:	WB 3.0.x		
Operating System:	-any-		

Description

Frontend routing redesign.

The time-consuming and complex 'Short-Url' is completely eliminated. The routing is firmly integrated and enables a highly flexible use of URI routing without the need for physically existing access files. If, however, conventional access files do exist, these are used. As before, the root directory of the access files (virtual or physical) can be chosen freely. Frontend links can also be implemented as **.html** links. In contrast to 'Short-url', no changes need to be made to the existing, minimal **.htaccess** file when the link type is changed.

History

#1 - 2022-04-22 17:17 - Manuela

- Description updated

#2 - 2022-04-23 13:04 - Manuela

- Status changed from New to In Progress

#3 - 2022-07-01 12:11 - Manuela

- % Done changed from 10 to 70

#4 - 2022-07-01 12:41 - Manuela

- Description updated

#5 - 2022-07-01 12:42 - Manuela

- Target version changed from WB 2.13.2 to WB 2.13.3

#6 - 2022-07-30 07:16 - Manuela

- Project changed from WB 2.13.x to WB 3.0.x

- Target version changed from WB 2.13.3 to WB 3.0.x

- Operating System -any- added
